

WORLD-WIDE RALLY FOR FREEDOM 2.0

PRESS RELEASE

04/05/2021

On Saturday the 15th May 2021, The World-Wide Demonstration will return, bigger and better than ever before. In more than 40 countries around the world, people will march for Freedom, Peace, and Human Rights.

With strengthened resolve from our first World-Wide Rally for Freedom on the 20th of March 2021, we will once again reclaim our fundamental rights, and take a stand against excessive Coronavirus restriction measures

The Objectives of our Protest:

Lockdowns and border closures have taken lives to increased suicide rates, and destroyed Livelihoods, causing financial ruin.

No population should ever again be subjected to Ubiquitous Public Incarceration.

Excessive Coronavirus Restrictions measures must come to an end, and all state of emergency declarations enabling these measures must be repealed.

Tyrannical suppression of dissenting voices must be stopped, and peaceful citizen assembly must be respected by police forces, instead of being violently crushed.

We have had our bodily autonomy violated by mask mandates, restricting our ability to breath and speak freely. All mask mandates must end.

Plans to mandate coronavirus vaccinations, enforced by Totalitarian Vaccine Passports, are being rolled out internationally.

We will not accept Movement Licenses becoming a part of our travel requirements.

Any mandates that violate informed consent must be stopped totally, through legal and activist pushback.

As one massive, united, and peaceful community, we will stand up and demand an end to the current restrictions and authoritarian control measures.

Authoritarian coronavirus restrictions have damaged our lives more than any virus has, and even if the effects of the virus were more damaging, the restrictions to our freedoms would still have been unjust and unlawful.

Our fundamental freedoms have top priority, and we cannot allow them to become constrained, for the sake of the generations that follow us.

We cannot allow our Human Rights to be re-packaged as Human Privileges, to be conditioned upon compliance with Authoritarianism.

#WEWILLALLBETHERE

We are taking a stand for 5 important Freedoms:

- Freedom of Speech.
- Freedom of Movement.
- Freedom of Choice.
- Freedom of Assembly.
- Freedom of Health.

As the Freedom Movement develops around the world, a variety of new solutions are rising that will enable people to Take the Power Back.

An International Freedom Movement is emerging that is building alternatives to established power structures, and ways of living.

People are choosing to leave densely populated areas, and forming new communities where they can more effectively govern themselves.

People around the world are saying "Enough Is Enough" and are refusing to comply with overbearing restrictions, and helping others to gain the confidence to begin their journey of non-compliance.

People around the world are making their government serve them again by running against established candidates, with a Grass-Roots Activist Freedom Movement backing them.

Society is pushing back against pervasive and restrictive socially enforced norms.

Creative people are making music and art to spread awareness of the rising tide of Freedom Culture.

By using comedy, we can make fun of Authoritarian overreach, point out the blatant hypocrisy of its enforcement, and plant seeds of rebellion in the society around us.

No one can resist the truth, wrapped in a good joke.

By taking back the culture, we can bring more people to the cause of Freedom.

The Light of Freedom cannot be extinguished.

Throughout history, Humanity has been tried and tested in difficult times, but in the end, Freedom Always Wins.

We call on all opponents of the Coronavirus Restriction policies of their own government to participate in this World-Wide Protest.

Since the beginning of 2020, we have grown together locally and become a part of a broader Freedom Movement around the World.

We have made many new friends, and found that we are not alone in our desire for Freedom.

We have received an overwhelming amount of support from many countries and are collaborating with organizers locally to deploy a wide variety of events.

On Saturday May 15th, 2021, we will all once again demonstrate for our Fundamental Human Rights, for our Constitutionally Protected Freedoms, and for the end of the excessive Coronavirus restriction measures.

Now we will stand up. One Day. Everyone Together.

World-Wide Rallies for Freedom will take place in the following Countries: (In Alphabetical Order)

Australia
Argentina
Brazil
Bulgaria
Belgium
Bosnia and Herzegovina
Canada
Cyprus
Croatia
Denmark
Estonia
England
France
Finland

Iran
Japan
Jamaica
Luxembourg
Latvia
Montenegro
Mexico
Netherlands
Northern Ireland
Norway
Portugal
Puerto Rico
Philippines
Switzerland
Sweden
Spain
Scotland
Serbia
USA

Many more countries will be joining our demonstration in the days that follow

The pictures and videos of our events will travel around the world, and each event will be live-streamed, on May 15th, 2021.

Our previous demonstration took the world by storm, and our cities were filled with Freedom supporting people, from all walks of life.

Now that each nation has established organizations for Freedom Demonstrations, this international collaboration has been made possible, and will strengthen the resolve of our movement.

The corrupt and contemptuous actions of Governments and Non-Government Organizations during the Coronavirus pandemic is an International problem that calls for an International response.

We would like to encourage and call on everyone to peaceably and publicly assemble, and speak out loudly and clearly.

We reject all acts of violence, identity politics, and discrimination of any kind within our movement.

Our diverse, peaceful and powerful movement will not be divided.

We stand together for humanitarian values, and as a beacon of true international solidarity.

We are thankful that so many people are hearing our message, and responding to this call.

We are non-partisan, and we invite all people who can identify with our values for a conversation.

We are all Human, and we will not be divided.

We choose to live free.

About us

In the spring of 2020, we formed an action group in Germany.

We believe that fundamental rights are not privileges, and we stand for peace, freedom, democracy and solidarity.

We are mothers and fathers, children and grandchildren, brothers and sisters, young and old. We are the People. We are the Society.

We would like to thank those in power for awakening our desire for political self-determination.
